Payment (Full payment required upon booking)

Payment is typically done by bank transfer or Paypal. We will email you an invoice for your records.

General Conditions

- Spots are limited and sometimes fill up very quickly. **Overbooking is possible and spots are allocated in order of payments AND registration forms received** (Form alone or payment alone, does not qualify as full application to enrol). In this case, the last person to submit payment and form will be refunded their payment in full and unfortunately won't be able to attend.
- The course is conducted by **Blue Remora P/L** (Geovital International / Health Stronghold) and financial payments are effectively made with our company in **Australia**.
- REFUNDS:** 40% of your payment is refundable up to 10 weeks before the planned starting date if you choose to cancel your attendance to the course. If products were purchased at course discount prices (which may or may not have been on offer) BEFORE the commencement of the course, then, in case of cancellation by you, the refund is reduced by the discount you enjoyed on the purchases. This may mean that no funds are refundable. Items purchased, especially instrumentation, can typically not be returned for a refund either as they are simply no longer new. – In case of access having been given to an online training system, this access will also be terminated.
- In the unlikely event that all training needs to be cancelled from our end**, a full refund can be organised or payment can be transferred to another course. In case of some or all sessions needing to be cancelled and/or rescheduled, Blue Remora P/L cannot be held liable for any costs on your end this may cause (eg Travel, accommodation, loss of income etc.).
- During our courses a level knowledge is taught which is normally able to be comprehended by those able to enrol. It may however require practice to improve one's skills. **Our aim will be to familiarise you as much as is reasonably possible with the theory and possibly practical component of the training.** Beyond this you must fine tune your abilities on your own for which you would likely need to purchase instrumentation or products. When doing in-person courses, you will understand the workings, you will practice with us, and whilst enjoyed and understood by many, **we cannot guarantee every individual will master the taught content or skills** by the time you finish the course.
- Regarding online courses:
 - You require a **computer with internet connection and a webcam and microphone** to attend any live online meeting sessions if they are part of your course. You may also be able to join using a tablet or smart phone which is more mobile but the viewing ability may be reduced.
 - In case of access to an **online knowledge centre (OKC)** being part of your course, you'll **possibly be given access to sections** of content in stages.
 - The online live meeting sessions may go for several hours. Breaks will be scheduled but **you must look after yourself and your wellbeing during class.** Remember to stay hydrated, comfortable, stand up, have a stretch or whatever you feel needed to keep you comfortable during class. Feel free to ask for a break.
 - Live sessions cannot be, or not easily be repeated** if you miss one or must leave early. You should only commit to a guided online course if you are available for all planned dates and times (mind the time zone that dates and times refer to). Having to stop attending one course, may see you being charged to secure a spot in another course.
 - Content found in the online knowledge centre (if part of your course) is **copyright protected and not to be shared or published.** Access is given for one person or one couple. Login activity is monitored and logins from too many devices (in case you'd share your login details with others) **will be flagged as misuse and access can be terminated.**
- Neither Geovital Akademie Austria, Geovital International (trading name of Blue Remora P/L), Blue Remora P/L or its representatives are liable for any **personal injury or damage or theft of your belongings.** Care is taken to provide a safe training environment. During the classes, you may be exposed to EMF sources from the computer you are using, the locations you visit and accommodation you may use. Advise about suitability of products in certain situations is based on our in-house experience and research. This advice is given with the best intent and felt to be suitable at the time, but we cannot be held liable that product related advice being suitable for your specific situation.
- If prior experience of training is needed** for a course, this will be stated on the information available about the course.
- Students and teachers are to treat each other with respect. The host of the event reserves the right to remove people from class for **objectionable, rude or disruptive behaviour.** In such case, no refund is given. – Approaching other students (like in our Facebook group) with intent to promote your own services or products or to cause disharmony is not permitted.
- Additional services** that are gained access to when buying a course (like student Facebook or social media group, Office Hours online sessions etc.) **can be withdrawn or cancelled at any time.** Access to online support systems, like the **online knowledge centre (OKC), is intended to go on for some time but is not indefinite.** The term 'Lifetime' in this context is as long as we enable access or use particular hosting systems.
- If **students of professional consultant training** equip themselves with the needed instrumentation to execute home assessments AND start a business in home assessments, then **Geovital products can be sold** by them and commission earned, or possibly bought at a wholesale rate. This is subject to certain agreements and conditions coming into place fitting the type of relationship, and are subject to the student being viewed as a **suitable business partner.** Permission to **sell products online is not automatically included** in this. To qualify to become an official **Geovital Consultant**, the live-training must be done because the online courses misses some key ingredients needed to be an official Geovital Consultant. Without this, the role of **Geovital Associate** is available for suitable individuals or a relationship type called '**Freelancer**' which forms a more distant relationship with us, might be suitable.
- EMF radiation reduction has the aim to support health but this can't be guaranteed. **EMF assessors and trainers should not make any promises or claims about what shielding will do for the health issues of individuals.**
- COMPETITION AND CONFIDENTIALITY CLAUSE:
 - During the training (in-person or online) or informal guidance outside of the formal training duration, during and after this course, you may possibly be given access to knowledge about business related Geovital / Blue Remora P/L / Health Stronghold procedures, strategies, documents and business agreements. **By signing this registration form, you agree to this functioning as a confidentiality statement** and you agree to not share, broadcast, make public or do anything else with the information gained in this training that can **harm our reputation, reduce our income or growth potential, or affect our competitive edge in the marketplace.** The information is provided to you for your use privately or in business with your clients only. Not to be shared with others. You understand that if course material and shared information (including training material, online course access, video or audio recordings) was found to be distributed by you willingly or by accident, you are liable for (potential) damages this may have or could cause. We strongly recommend, if you obtain or create video or audio recordings of part of the training (in agreement with your trainer) that you do not store this on your computer or phone.
 - By enrolling in this course, you confirm you are not teaching any course that could be competing with this course and/or you agree to not start teaching a course at any time in the future which could be competing with this course or contain components of this course without our express written permission.**
 - This clause will remain in force after training for as long as is acceptable by law and we agree that the maximum amount of damages sought in relation to this Competition and Confidentiality Clause will not exceed a value equivalent to € 500,000 (euro).**
- Even though the range of illnesses that people have recovered from by being in an environment protected by our products, neither Geovital Akademie Austria, Geovital International (trading name of Blue Remora P/L) or any Geovital Academy representatives are making claims that these products will heal any illnesses. **These are protection products, not medical devices, medicine or a treatment.** During the training products may be available for purchase.

Changes of Conditions are possible with exclusion of the competition and confidentiality clause. E&OE (June 2020)
